

The Red Alarm

Fire crackles around you loudly,
Smoke floats into your nostrils,
Sparks get into your squinting eyes,
Hot colours flying around,
Making light, making sound.

Fire spreading quickly,
Flames moving like dancers,
Fire persuading you to be fuel,
Blazing fire rustling like trees,
Flames burning houses down wildly
Making houses tumble down very fast to the ground.

Red sparks flying everywhere,
Flames spreading on the ground,
Sound the ALARM!
