

## Foundation Stage Number hunt!

Over the Easter break we are challenging you to go number hunting with your child! We would like children to collect examples of 'numbers in the environment'. Eg a photo of a number on a front door, a price ticket, a photo/picture of a clock, a calendar, examples of numbers in magazines, road signs with numbers etc. Entries must be returned to class teachers by Friday 28<sup>th</sup> April. All children that participate will receive a certificate and there will be a small prize for the child in each class that collects the most numbers!

Happy number hunting!
